

Visual accessibility guidelines

Did you know that May is Vision Health Month? One of the founding partners of the CDPA was the CNIB (Canadian National Institute for the Blind), and like all of our partners, they taught us a great deal about making our processes and our products accessible. As part of our *Accessible Meetings Guidelines*, we have adopted a number of visual accessibility best practices. Simple practices can make a big difference, such as: making all materials available in text format that can be read by a text-reader; black & white text, larger fonts, more white space. To access the guidelines, [click here](#).

A vision of Canada where people with disabilities enjoy full participation and citizenship, supported by a coherent framework of legislation, regulation and programs.
