

# Survey on COVID & disability

In response to vigorous advocacy about the impact of COVID pandemic restrictions on people with disabilities, Statistics Canada has launched a survey, entitled *Impacts of COVID-19 on Canadians Living with Long-Term Conditions and Disabilities*. Described as a “crowd-sourcing initiative” (because of the non-systematic sampling strategy), the survey will be active from June 23<sup>rd</sup> to July 6<sup>th</sup> only. Participating in this survey is the best way to ensure robust, evidence-based policy in the future. Take it yourself, and/or pass it along to your network. [Click here](#) to find more information and a link to the survey on our website.
